

9647/9648/SM58 Date Change Instructions

This model meter can be used with the following bases:
SM94, SM78, SM56, 3000, 9180, 9165, 9151, 9150, 9148.

You will not need to remove the meter from the base to change the year.

Simply open the cover as you would to change the day & month, then open the print cover (if applicable) to expose the date wheels.

Using a pen or a small screwdriver, turn the year column towards yourself to read "01".
This column will be on your left hand side.
