SMALL SIZE, GREAT VALUE

The IJ-25 combines advanced digital technology with a sleek look and compact dimensions to comfortably fit into any modern office environment. High-quality digital printing gives crisp, clean impressions and a quiet performance. The IJ-25 processes envelopes up to 3/8" thick or prints self-adhesive labels for packages or flats.

EXACT RATES, LOWER POSTAGE COSTS

The IJ-25 always meters the exact postage. The integrated electronic scale accurately sets the machine to the correct postage. This cuts out the risk of over or under spending on postage, which results in staying within your monthly budget. Everyday postal rates are stored in the IJ-25's memory and other rates can easily be set manually, so if your postage rates change, the IJ-25 is easily updated.

MAKE YOUR MARK IN STYLE

With the IJ-25, you'll enjoy a more business-like image – not to mention free advertising! You can customize your mail message to include your company name, special greetings, marketing slogans – even logos and photographs. There are also eight pre-set messages to choose from as well as stamp, date or message-only modes for extra flexibility.
